

## High Rise 8000 / 2500 Giant Reel Type Rock Pickers

GONUMBER ONE... GOSCHULTE!

## **Features**

An extra long hitch pole is adjusted from transport to field position manually or with an optional hydraulic cylinder. The long hitch pole improves picking performance by positioning the rock picker grate to the side of the tractor for ease of visual picking.

Flow Control Kit - this kit has a 0 to 15 GPM flow control valve which helps to control the reel speed. This option is useful on tractor models where hydraulic flow is not adjustable.

The Schulte High Rise 8000 and 2500 Giant is hydraulically driven using a rugged Char-Lynn 2000 series hydraulic motor in combination with a flow control valve for reel speed adjustment and a crossover relief valve to cushion shock loads.

Heavy duty batt springs

Simple and efficient hydraulic drive reel type rock pickers in high lift and semi-high lift styles.

Durable tapered T-iron grates in various designs eliminate jamming while sifting soil.

Large heavy wire batt springs hold batts firmly in place and cushion shock loads.

Large 16.5L x 16.1 10ply tires provide superior floatation and wear resistance.

Three batt reel with high trip clearance provides superior performance in all rock sizes from 2" to 27" diameter.

Grated hopper bottoms sift out soil

Full year warranty for ag use operation.

Build bigger rock piles or loads trucks

Large 3cu yard hopper on High Rise 8000

2500 Giant Dumping

Standard Grate & Reel Good for windrowed rocks or all around stone picking

Grate & reel with 3/8" thick square batts and 11/2" spacing

Minimum Till Wide Grate & Reel Good for spot picking in fields where you want to reduce trash and residue picked

Grate & reel with 3/8" thick square batts and no till grate with 3 9/32" spacing

Heavy Duty Grate & Reel Designed to pick large heavy windrowed rocks

Grate & reel with hardened 450 steel & replaceable grate teeth with 2 1/8"spacing

# **Other Options**

CE Shielding Kit. Front view

CE Shielding Kit. Side view

Round bar grated back bucket. High Rise 8000 only

Reservoir Kit

Hydraulic swing hitch

Rubber bumpers for dumping into trucks.

motor on the rock picker. This kit comes with an oil filter and all electronic hardware to operate the system from the tractor cab. Oil required to fill the reservoir is 30 US Gallons or 113 litres.

### HIGH RISE 8000 and 2500 GIANT OPTIONS

- Various Grate and Reel Options: Standard Narrow Grate & Reel, Minimum Till Wide Grate & Reel or Heavy Duty Hardox Grate & Reel
- Hydraulic Rervoir Kit (Shown in Brochure)
- Hydraulic Motor Valve Kit this kit is used to meter oil between the hydraulic cylinders and the hydraulic motor so that reel speed does not decrease excessively when raising and lowering the grate. This option is useful on tractor models which use an open center hydraulic system
- Hydraulic Swing Hitch this kit provides a hydraulic cylinder which allows you to move the hitch in and out of transport position from the comfort of your cab
- Dump Truck Bumper Kit this kit provides adjustable bumpers that attach to the rear of the rock picker for backing up to trucks (Available on High Rise 8000 only)
- CE shielding Kit provides extra shielding in the grate and reel areas to meet European shielding requirements
- Round Bar Grated back bucket (Available on High Rise 8000 only)
- North American or European Light Kits

The perfect companions to the Schulte High Rise 8000 and 2500 Giant are the Schulte models SRW1400 and SRW 800 Windrowers. These units windrow scattered rock from 2"-25" diameter, into neat rows, greatly reducing the time required to clear rock and debris from the field.
