HIGH CAPACITY TRANSFER CONVEYORS

INNOVATIVE QUALITY SOLUTIONS

HIGH CAPACITY TRANSFER CONVEYORS

Our high capacity transfer conveyors are well balanced, easy to maneuver and position.

We have a longer collapsible hopper for superior containment and better reach.

The conveyor comes with a tow package which includes highway tires and a hitch.

We offer electric, hydraulic or gas drives.

DRIVE OVER CONVEYORS

- Large containment area for easy unloading from bulk trailers and end dump grain bodies.
- Electric or hydraulic drives available.

- 14" diameter tube, 22" wide belt.
- 7" high deck for easy driving over.
- Extra large 12' long drive-over deck for easier positioning of truck and trailers.
- Containment flaps lay flat for driving on and off, then can be raised to hold unloaded product.
- Comes with highway tires and tow hitch.

RAIL CAR CONVEYORS

- Extra low profile to easily fit under rail cars.
- Exceptional reach to make set up to unload fast and easy.
- 2 models to match your capacity requirements.
 - Fold up containment flaps to ensure grain stays where it should.
 - Stainless steel options are available.
 - Gas, electric or hydraulic drive.
