

**FLAMAN**

# QR150H

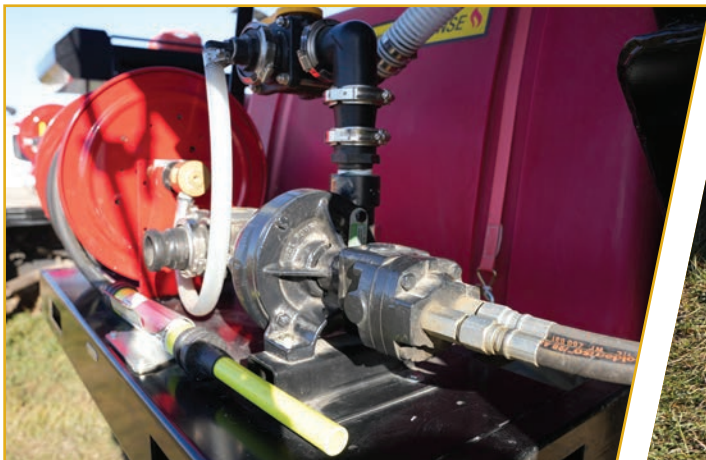

## 150 GAL FIRE SUPPRESSION SKID

***Designed as a quick response to combine fires.***

This unit features an industrial cox reel, 150-gallon water tank, 3/4" hose mounted on a 48" heavy-duty steel skid, and Scotty Firefighter cartridge-based foam delivery system.

The **QR150H** utilizes an open/close system hydraulic pump powered by your tractor's hydraulic lines for quick access in the field. An optional mounting kit from J&M is available.

***Works with tractor hydraulics.***
