

**FLAMAN**

# QR150

***Ideal for campgrounds, resort villages, farms, and rural communities.***

The **QR150** firefighting skid puts an arsenal of quick response safety equipment within easy reach. It mounts a 2" aluminum pump, hose reel, hose, nozzle, and 150-gallon water tank on one rugged, heavy-duty skid.

Not only does this 48" wide skid support a comprehensive set of tools for common emergency situations, but it also boasts a solid frame with built-in fork pockets, making it easy to move wherever you need it.

The complete kit includes a cartridge-based Scotty Firefighter foam delivery system that's reliable and simple to use.

***Fits in a half ton!***
