

BIN-SENSE COMPARISON CHART

Bin-Sense Direct

An on-site handheld grain monitoring reader. Simply plug the reader into your bin cables and connect to your smartphone via Bluetooth, giving you a touch screen view of your stored grain.

Bin-Sense Solo

The perfect solution for small to medium-sized grain bins, delivering daily grain storage information right to your mobile or desktop device.

Bin-Sense Live

Delivers hourly grain storage information to your mobile or desktop device. It allows you to turn on your fans remotely for proactive grain management.

Bin-Sense Plus

Our top-level grain storage monitoring with automatic aeration fan control delivers grain storage information to your mobile or desktop device for optimized grain quality.
