

Quick Response Fire Suppression Skid

Customer Inspired. Flaman Built.

Built-in fork pockets allow you to easily move the **48" wide skid** to your half-ton truck or grain cart.

3/16" powder-coated steel skid. Ruggedly built to handle heavy use.

No running water available? **Two 3-way ball valves** allow you to refill tank from any nearby water source.

100 feet of 3/4 inch 150 PSI hose on an industrial cox reel gives you the reach and power to handle all emergencies.

Cost-effective, reliable, and **user friendly cartridge based foam delivery system** keeps you prepared without the maintenance hassles of liquid foam.

**ONLY
\$5,250**
