DRONES

We have a curated selection of drones available at Flaman for your spreading, spraying, and surveying needs.

**CALL TO BOOK
A DEMO**

DJI AGRAS T50

This drone has a twin-rotor system, advanced stability control, nine-minute full charge, payload capacity of up to 50 KG, and multidirectional obstacle sensing and avoidance. Able to cover large swaths of farmland at 21 hectares per hour, this unit makes quick, efficient work of a variety of crucial tasks, hovering over grain farms, orchards, or livestock operations.

DJI MAVIC 3M

This drone sees and records information on your crop and the ground it occupies in minute detail and real time – right down to the centimetre and microsecond. It precisely detects and maps areas where growth is stunted by problems like crop lodging, failure to germinate, and weed pressure. The process takes little time, covering 200 hectares in a single flight.

AUTEL DRONES

In addition to our DJI drones, we have options from Autel.
